. Geometric Post Processing and . Gates and Holes, how to create them in Sketchup? . A: The free plugin is very good for this. It has post processing features that will help to generate topographically correct terrains from splines. It is able to generate terrains in all 3 dimensions and if there is enough content to create it is very good for low poly style terrains. I believe that the terrain was generated with the profile map feature of the free plugin. I don't know about 3ds Max, but in SketchUp terrain is basically a polygon with bevels, and there are many free plugins to generate terrains: If you want a 3D terrain I'd suggest looking at: Obstetricians and Gynecologists Washington University is a highly regarded teaching hospital, the leading center for women's health in the United States and a pioneer in the field of reproductive medicine.
